

User Manual - Security Guard

Who you are: the person who ensures only authorized people enter and exit.

Scanning a Gate Pass

1. Open the Guard Scanner page on a tablet or computer.

[**SCREENSHOT: G1 - Guard Scanner Page**]

(place the actual screenshot here)

2. Present the printed gate pass (with QR code) to the camera.
3. After scanning: GREEN if valid and Approved; RED if Rejected, expired, or not allowed.

[**SCREENSHOT: G2 - Scan Result (valid = green / invalid = red)**]

(place the actual screenshot here)

4. Click Mark as OUT when the person or vehicle exits.
5. Click Mark as IN upon return. It is saved automatically - no logbook entry is needed.

Note: If the QR code cannot be read, type the Control No. on the form for a manual lookup.
